## Garden Art

To beautify your gardens think about adding a piece of sculpture to create an exciting visual centerpiece or a finishing touch to enhance the garden space. Here are a few things to consider when deciding on that special piece of garden art. In the same way you enjoy finding that nice decorative piece to enhance the interior of your home, think of your garden as an extension of your decorating potential.

The most affordable and popular sculpture is generally made from some type of concrete and a mixture of natural stone. These pieces tend to have a nice natural look and are low maintenance. The Hosta Hideaway carries a wide variety of outdoor art and is more than willing to help you select that perfect garden piece. We continue to be a proud retailer of Campania Cast Stone ([www.Campaniainternational.com](http://www.Campaniainternational.com)), but we also feature other unique statuary.

## Past Hostas of the Year:

A great place to start or add to your hosta collection from the Hosta Hideaway

- |                              |                         |

| 2007 "Paradigm"              | 1996 "So Sweet"         |

## Greetings

We are excited to think about the start of our 11th year! It is always rewarding to hear how relaxing, peaceful and enjoyable it is to visit the Hosta Hideaway. Each year we try to "make it new" and to have each visit be a unique experience. But the simple fact is that hostas are the constant no matter what hardscaping or decorating we are doing. They are beautiful, reliable, easy to grow and low maintenance plants. The satisfaction that accompanies the emerging plants, the beautiful textured leaves or the light fragrance of an August bloom keeps us doing what we enjoy. I encourage you to create your own little hideaway where you can kick up your feet and soak in the pleasure of growing things. And as always, we look forward to seeing our garden friends and to meet new customers.

**Thank you for your support!**

**Donna, Charles and Chuck**

Hosta 'World Cup' is one of our favorite giant hostas. This bright gold beauty has deeply cupped and heavily corrugated leaves. The upright growth allows medium hostas to be planted around its base to create a great garden feature. Hosta "World Cup" can also be a majestic stand alone hosta that adds some sunshine to the garden or it is impressive in a contrasting color planter. Lavender flowers make their appearance in late June to early July.

## HOSTA OF THE YEAR 2018: HOSTA 'WORLD CUP'

## Planting Hostas is good for you

According to the Centers for Disease Control "Gardening can be a great way to enjoy the outdoors, get physical activity and beautify the community" Also, did you know that the National Institute of Health lists gardening as a recommended moderate level exercise to help combat obesity. Gardening does not have to be just about digging, weeding or hoeing to be beneficial. Getting outside to tend to your garden helps you to relax and enjoy the peace and calm of nature. And here at the Hosta Hideaway we believe that planting a hosta can be the most beneficial to your health!

## Featuring Hostas in your Garden

Most people have at least some shady area of their yard, whether it is dappled shade produced by trees with elevated canopies or morning or afternoon shade depending on the where the shade producing structure is located in relationship to the garden space. Shady garden areas tend to be one of the more private and serene locations in the garden. These cool and intimate spaces are the perfect place to stop and enjoy the beautiful foliage and color of hostas layered in shaded paths in your garden. Come for a visit to the Hosta Hideaway to see the possibilities or let us help you plan your garden spaces.
